TipTop Tech

xFiling System

Custom Filing System

AMS   ISF   ACI

xFiling System is a web-based solution that allows you to submit your HBL directly to US Customs and Border Protection's AMS/ACE system and many other US government agencies in order to get your clearances electronically..

Automated Commercial System (ACE- AMS ISF):

The Automated Commercial System (ACE) is a multi-modular cargo inventory control and release notification system for sea, air and rail carriers. ACE speeds the flow of cargo and entry processing and provides participants with electronic authorization to move cargo prior to arrival. ACE facilitates the intermodal movement and delivery of cargo by rail and trucks through the in-bond system. ACE reduces reliance on paper documents and speeds the processing of manifest and waybill data.

Benefits of ACE-AMS Through xFiling

Maintain security of proprietary information such as shipper and consignee names and addresses

Receive status notification when an entry has been canceled or deleted

xFiling System Benefits:

 Attractive Pricing & Operational Cost Reduction

 Simplicity: Designed to be intuitive and with the customer in mind, e-CLEAR takes advantage of your own House Bill of Lading format and is easy to learn and navigate.

Cloud-based Solution: No hardware or software to buy or support, secure access worldwide.

Secure Your Data: Customer data always remains private and confidential.
